Open-Ended Responses**1. In what ways did your instructor make learning possible for you during the Fall 2023 semester?****Comments**

He helped bridge the gap between what the professor taught and what we needed help with.

He did an excellent job answering questions.

Andrew very clearly explained the concepts we learned in class and clearly solved the practice problems. I learned a lot from the recitation.

Andrew was great. I felt like I learned more from him than my professor. He is very intelligent and helped us throughout the semester better understand the subject.

2. Which aspects of this course should be kept for future times this course is taught?

Comments

I thought the course layout was great.

I think the grading scale was okay and meeting once a week was great.

However, I did find it a bit unfair we had to take our quizzes in class and were only given 10 minutes when others got to take home their quizzes. As someone who struggles with exams and doesn't work that fast sometimes it was a bit challenging.

Comments

I thought he did an excellent job explaining the material. The structure of the recitation (problems packet, question review, quiz) was very helpful for learning the material and getting an opportunity to ask any questions.

I'd say his pace. His teaching was always easy to follow and understand. I never felt like we were going too fast or too slow.

Andrew Paul always showed up for recitation and was available for office hours throughout the entire semester. He is very knowledgeable in the subject and answered questions in a way that all students can understand.
