9. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- -
- Great TA. Understood the material and understood how to make it engaging. Very clear and made discussions enjoyable.
- He had a very strong command of the material, was very adept at explaining the concepts clearly and was very helpful to students asking questions.
- Most of the time during discussions, I would always have a difficult time starting a problem in calculus, but this TA really helped me out by suggesting being aware of patterns in the problem and based on those patterns what techniques of integration to use.
